<i>Description: Removal of all components of existing 195 l/f x 6' wooden privacy fence, and replacement with pre-stained cedar board-on-board fence with top cap detail, rot board, and all-metal posts set in concrete in post holes to a minimum 24" depth. Height will start at 6' and will follow horizon versus grade. Existing SW and SE fence lines are located within a 5' Utility Easement. Marking services have already located buried utilities, and the SW elevation was determined to be an encroachment on a buried electrical main. This approx. 90 l/f elevation will be moved outside the UE. There was no encroachment noted along SE elevation, thus this fence line will stay as-is, pending approval. NW elevation will be moved approx. 11' forward to a location approx. 2' from NW corner of the house, pending approval. East elevation currently abuts SW side of driveway, and will be moved approx 18" SW such that it abuts the rear patio of the home. Two (2) gates will be fashioned from WRC components and will be located along NW elevation as well as east elevation adjacent to driveway.</i>
